## STAINLESS: ALL POLARCOOL UNITS ALSO AVAILABLE IN STAINLESS STEEL MODELS

THE BEST AIR FLOW OF ANY EVAPORATIVE COOLER ON THE MARKET!

**STAINLESS STEEL CABINET** - Gives you durability and long life. Holds its shape in the sunlight and allows you to wipe it clean after many years of use.

**ANTI-BACTERIAL COATING** - on the paper media (pads) keeps bacterial growth down plus gives structural strength and extends the life of the pads.

**HINGED TOP COVER** - Providing easy access and maintenance to the pads. The pads will need to be removed and cleaned periodically. Provides direct access internally.

**18",24",36",48"UNITS** - Provides outstanding air flow and cooling in all areas where evaporative cooling is most effective.

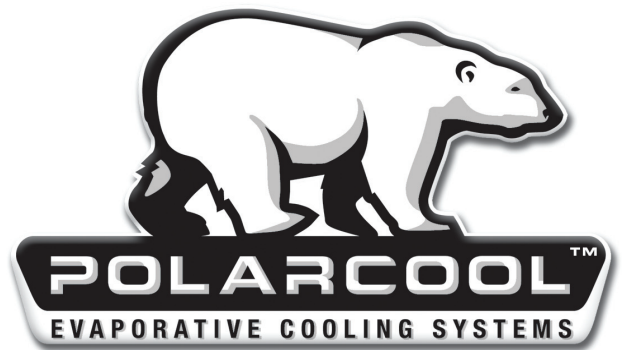

48" Single Speed  
36" Variable Speed

24" Variable Speed

18" Variable Speed

PolarCool™ provides effective spot-cooling for multiple applications that normally would be too costly to cool with refrigerated air. All units are designed for multiple applications and include high quality features.

- Best Evaporative Cooler on the market built to last
- Backed by a great warranty & customer service!
- Stainless steel housing: durability, low maintenance & long life
- Low water level sensor to prevent damage to pump (except 48" model)
- Four size units available to fit your specific needs
- Operator friendly touchpad controls (except 48")
- Up to 20 degree temperature drop
- Drain plug for easy cleaning
- Energy efficient cooling
- Extreme mobility

## MADE IN USA!

Cooling relief on the spot to an array of industries such as body shops, warehouse facilities, sporting events, automotive and manufacturing plants, outdoor/exterior cooling, and others.
